KENTUCKY HILLS.

Grand old Kentucky hills! Rising skyward in majestic splendor Topped with forests of nature's grandeur.

With your valleys and fragrant flowers Growing everywhere in bowers And your rippling streams so sweet Winding ever at your feet.

Dear old Kentucky hills! How our hearts are filled with longing As o'er distant lands we're roaming. Longing for the dear old home And the welcome everywhere That is waiting for us there.

Our own Kentucky hills! There our mothers sit and knit. For their ailing boys a bit. And their prayers rise o'er your tops As they wrangle with the knots. Asking God to keep our country grand And free.

And praying "Oh God, send my boy back to me." Lovely old Kentucky hills! May your boys do the duty And go forth from all your beauty To the thickest of the fight. And help win the cause that's right. Then when Democracy the world has won.

May they all return to your dear sun. Brave old Kentucky hills! May your boys prove their worth. There's none better on the earth! And may memories of thy protection Help keep them in the right direction Till "Peace on earth, good will to men" Is declared o'er all the world again.

LAWRENCE COUNTY RED CROSS WORK

Interesting Items, and Answers to Questions Asked by Many People

We are still on the increase both in membership and the amount of work done. We have a good start and cannot stop. The present membership in the county is 1254. Our aim is 2500 by February 1. In the last issue of this paper for the month of January we will publish the post office lists again to show the increase at each office. Richardson still leads in the list outside of Louisa with a total of 73.

The woman's work department has been busy, and under the difficulties of yarn shortage and, until recently, lack of sufficient money for abundant supplies, has made a splendid showing as will be seen in the report in this article of the articles made and shipped. It seems difficult to convince many persons that it does not take long to make up even \$100 worth of supplies. Let all workers in all parts of the county get this fact in their minds: If we are to have materials to make up after the present fund brought in by the Christmas Drive is exhausted, it cannot be done without money. Unfortunately we have not been able to get much yarn, but if the present calls for yarn by workers in the county could be supplied it would take at least \$300 a month. There are women enough willing to work to make up a thousand dollars worth of materials each month.

A number of articles are not yet reported in, but to date the following articles have been shipped to the Red Cross Bureau of Supplies: SWEATERS: 22. Socks, 28 pairs. Mufflers, 6. Wrists, 14 pairs. Helms, 2. Knitted bed socks, 1 pair. Operating Leggings, 2 pairs. Bandage foot socks, 2 pairs. Bed socks, 2 pairs. Bed shirts, 1. Gaiters, 8 suits. Besides these, there are samples of hospital garments made up for work-room use.

The workers wish the public to understand that people are always welcome at Red Cross headquarters. Every woman who is willing to work can find something to do by inquiring of the chairman of any of the departments. All articles must be made right and inspected before shipment. We are glad to report that all our shipments have received the perfect mark by the inspectors at division headquarters. Chairman Davidson of the Red Cross War Council urges every chapter, branch, and auxiliary to display a sign such as the following: EVERYBODY WELCOME HERE.

You are cordially invited to enter these quarters. The American Red Cross will gladly give you full information and answer all questions in connection with its work.

It is not too much to say that all who want to work are doubly welcome. You can knit, sew, collect money for supplies or secure memberships.

All workers should be interested in the following:

You ought to be able to find our place any time and you are hereby cordially invited to help in the work room.

Questions Answered.

It is already clear that if the generous impulse behind the Red Cross movement in the United States is to find full expression, work for suffering humanity upon a scale beyond precedent or anticipation will have to be undertaken. Here and everywhere this will require funds much in excess of those already pledged. Questions have been raised as to why work of such consequence and magnitude should not be the object of government instead of private endeavor, and the American Red Cross gives the following threefold answer:

1. Through the Red Cross men, women or children, though they cannot go to the front, can find a way to aid those at the front, thus the volunteer spirit, a very precious asset, has an effective means of expressing itself.

2. Through the Red Cross one-half the nation, namely, the women, can most effectively serve their country in the war emergency.

3. By concentrating through such a religious organization as the Red Cross relief work can be accomplished with less delay and with more money.

The above question has been asked by a good many in this county and we hope the answer is satisfactory. Another question, not so satisfactory, has been asked several times in the past few weeks. The secretary here gives the question and the answer he has given at several places in the county. If you have a better answer we would be glad to have it. Why do so many able of the county who are abundantly able to support the work, take so little interest and in many cases no interest at all in the Red Cross work? Answer:

1. It may be ignorance. But men who are so capable in business are to be pitied if they are ignorant in this crisis.

2. It may be old fashioned stinginess. They live for themselves alone. The only thing that affects them is calamity in their own households or business.

Every Man Needs Clothing.

We have been notified by the manufacturers that Men's Clothing is having all the way from \$6 to \$10 per suit added to the price.

We are still selling Clothing at low prices. After our stock is gone you will need a suit and will then wake up to the truth of what we say. It will be too late. Buy now for future needs.

Why are we pushing the sales? Because an up-to-date store must keep buying new stock, regardless of price, and present stock must be kept moving.

TEACHERS

PUPILS

EVERYBODY

Do you know that we can take teachers and within six months qualify them to earn a bigger salary than you are now getting, and receive that salary twelve months out of the year instead of six or eight? Kindly write us or pay us a visit and we will prove this assertion to you by teachers whom we have qualified.

We can take pupils who have finished the eighth grade and in about six months qualify and place them in positions where they earn a higher salary than their former teacher received.

Our Preparatory Department is planned to take anybody who is deficient in their common school education and give them a foundation for either a thorough bookkeeping or shorthand course.

There never was a greater demand for bookkeepers and stenographers. The government is offering from \$1 000 to \$1,200 a year. Enter any time. Tuition is payable monthly. NOW is the TIME to prepare for these positions and the PLACE to get the BEST PREPARATION in the SHORTEST TIME is the BOOTH BUSINESS SCHOOL, Huntington, W. Va. The only business school in West Va. (that owns its own building.) Restaurant and Dormitories owned by the school.

GARRETT.

A new "law firm" in our town Vinson & Vinson being the new firm Wm. S. Vinson, son of Atty and Mrs. Jay Vinson, arrived on the 6th inst. hearty and well favored with good strength and voice, and becoming at once the junior member of the firm, to the great joy of both mother and father who are, to say the least, doing well. The many friends of the youngster gathered at his home one evening last week to rejoice with him and his parents and all wish him long years in life filled with success and joy.

Clyde C. Carter, who has been associated with the Elkhorn Coal corporation at this place for the past two years, has accepted a more lucrative position at Jenkins, Ky., with the Consolidation Coal Co. He became a mine foreman and moved his family there to assume his new duties on the 15th of this month. Clyde made good here and carries with him the good wishes of his many friends here for his continued success but his moving away from here is greatly regretted by all.

BUCKSKIN BESS.

TWICE PROVEN.

If you suffer backache, sleepless nights, tired, dull days and distressing urinary disorders, don't experiment. Read this twice-told testimony. It's Louisa evidence—doubly proven.

Mrs. Frank Plaz, Water St., says: "I suffered for a long time with many distressing symptoms of kidney complaint. The most annoying ailment was a severe pain in my back and a dull, bearing down feeling through my loins, which at times was almost unbearable. I was weak and languid, constantly tired and had no ambition. My back was in such a bad condition, I couldn't stoop over without enduring severe pain and it was a terrible effort for me to rise. I was restless at night and couldn't sleep. Mornings I was just as tired as when I went to bed. I was nervous, too, and suffered from severe dizzy spells. The action of my kidneys was irregular and caused me much annoyance. I felt like giving up, as nothing seemed to help me. I finally took Doan's Kidney Pills and the pains in my back and loins left. The action of my kidneys became normal and the other distressing symptoms were removed."

Mrs. Pigg gave the above statement on March 29, 1916, and on December 1, 1916, she said: "The cure Doan's Kidney Pills made for me is still lasting and I now enjoy the best of health." 60c, at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.
